(2) Reclamation withdrawals of land from the San Juan National Forest established by Secretarial Orders on November 9, 1936, October 14, 1937, and June 20, 1945, together designated as Serial No. C-28259, shall be revoked.

Renewal or reissuance of any such authorization shall be in accordance with applicable law and the regulations of the agency having jurisdiction, except that the change of administrative jurisdiction shall not in itself constitute a ground to deny the renewal or reissuance of any such authorization.

The Secretary of the Interior shall waive the scheduled annual payments for fiscal years 1998 and 1999 under section 208 of the Energy and Water Development Appropriations Act, 1988 (Public Law 100-202; 101 Stat. 1329-118).

Mr. HANSEN (during the reading). Madam Speaker, I ask unanimous consent that the amendment in the nature of a substitute be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

Mr. MILLER of California. Madam Speaker, S. 2117 as amended authorizes a number of relatively small but important provisions affecting water resource projects and management in the Western United States. The bill authorizes construction of a rural water system in South Dakota, transfers ownership of several Bureau of Reclamation projects to local water districts, authorizes several small projects in the Colusa Basin of California, and provides financial assistance for construction of water reuse projects in Phoenix and Albuquerque. The bill also allows the City of Vallejo, California to use the water conveyance facilities of the Bureau of Reclamation's Solano Project.

While I will not object to passage of this legislation, I will note that some of the Reclamation project transfers included in S. 2117 remain problematic. In particular, serious environmental issues have been raised regarding future management of the Wellton-Mohawk Division of the Gila Project and the Sly Park Unit of the Central Valley Project. The Bureau of Reclamation must work to determine the conditions for transferring these projects that will preserve the public benefits and avoid environmental damage from future project operations.

The amendment in the nature of a substitute was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

APPROVING A GOVERNING INTERNATIONAL FISHERY AGREEMENT BETWEEN THE UNITED STATES AND POLAND

Mr. HANSEN. Madam Speaker, I ask unanimous consent that the Committee on Resources be discharged from further consideration of the bill (H.R. 3461) to approve a governing international fishery agreement between the United States and the Republic of Poland, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3461

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,
